Re: Notice of Compliance/Non-Compliance, Sixth Report

Dear Mr. Perez;

We have learned yesterday, March 31, 1999 that the officials of this company have decided to curtail production for a two week period starting Monday April 5, 1999 through Friday, April 16, 1999. They have indicated that our sales are far below our projections with finished goods inventories above those normally found for this time of the year.

Starting Monday morning there will be no production employees at this facility for this two week period. Eventhough I have made progress I still am not finished with the Hazard Material Training Program. I plan on resuming this project after this time period.

I will be sending another update in approximately 30 days.

Should you have any further questions please feel free to contact me @ 316-327-1211.
